Select-a-Loom[®]
mfg by EPHA,

is a revolutionary device for the sorting and management of multiple hose, conduit and cable assemblies. Available in various installations, the **Select-a-Loom** can be utilized to easily integrate systems in a clean and efficient manner.

Select-a-Loom[®]: a New Product Available Now!

The Select-a-Loom[®] consists of two major components – the frame and the insert. The frame is constructed using an impact resistant material which gives it high strength and durability. The inserts provide the installer with the ability to easily construct an assembly of any possible arrangement or configuration and allows various systems to be integrated with one another.

Various Installation Options and Configurations

DISCLAIMER: This product is not in any way intended to be used as a patch or repair for hoses, cables, lines, etc. that are already worn beyond safe use standards. It also will not prevent oil from leaking or spilling from hoses or failed systems. The EPHA Select-a-Loom is solely intended to be used as routing accessory in an attempt to prevent damage to hoses, cable, lines, etc. at points of contact.
